NEXA Dune

ACOUSTIC PANEL
PRODUCT DATA SHEET
FOR TRADE USE ONLY

Rounded acoustic felt panels. Soft form, serious absorption.

NEXA Dune is a dimensional acoustic panel built from 100% PET acoustic felt — a run of deep, rounded ribs that turn a flat wall into soft, tactile relief. Self-supporting, lightweight and warm to the eye, it absorbs sound while doing the work of a feature wall. Part of the NEXA dimensional family alongside Ridge and Strata.

MATERIAL & BUILD

Material	100% PET acoustic felt	Recycled content	60% recycled fiber
Profile	Self-supporting rounded-rib (half-round) panel	Finish	Through-colored felt, no coating

ACOUSTICS & FIRE

Sound absorption	NRC up to 0.85 — ASTM C423 (varies with backing / air gap)	Fire rating	Class A — ASTM E84 (FSI ≤ 25 / SDI ≤ 450)

FORMAT

Panel	Made to order	Mounting	Mechanically fixed or adhered to substrate
Use	Walls and ceilings, commercial interiors
